Open Area: See attached maps.

Licenses: No more than 600 "any elk" and 1,200 "antlerless elk" licenses (total of 1,800 licenses)

Requirements and Restrictions:

1. No person may possess more than one (1) elk license of any type in a year.
2. No more than two persons may submit applications together.
3. Except for landowner/operator preference applicants, no person who receives a license in the first drawing for this season shall be eligible to apply for a Black Hills elk license in first drawings for the next 9 years.
4. One-half of the licenses allocated in each unit are available for landowner/operator preference. One member of each qualifying landowner/operator household may apply every year.
5. Any elk that is harvested must be inspected by a Department representative within 24 hours after kill.

Proposed changes from last year:

1. Adjust the total number of available licenses from 425 "any elk" and 700 "antlerless elk" licenses (total of 1,125 licenses) to no more than 600 "any elk" and 1,200 "antlerless elk" licenses (total of 1,800 licenses).
2. Modify the boundaries of BHE-H9A and BHE-H9B to correct unit boundary.

SUPPORTIVE INFORMATION

The proposed maximum number of elk licenses will be established in administrative rule and the GFP Commission via administrative action will determine specific number of licenses by tag types and allocation amongst hunting units.

Updated population objectives and the recommended number of licenses will be shared at the March Commission meeting once preliminary harvest estimates have been obtained and population modeling exercises have been completed.

There is currently a small geographic area that technically does not reside in any elk hunting unit; this unit boundary modification will correct this oversight.
